## Jobs

Solutions Skövde AB, Skövde

mar 2014 – dec 2017

Co-founder of Solutions Skövde AB. Had the role of CTO and lead programmer. Helped with programming in a lot of the projects and built a customer's technical infrastructure.

Developed products mostly include web apps developed with ASP.NET MVC on the backend and Angular/JQuery on the frontend. I've deployed them to Azure, AWS and GCP. I've also developed games with Unity from time to time.

## Education

Bachelor Degree in Dataology (120p), University of Skövde

aug 2012 – jun 2015

Game development - programming as main subject. Gave me a lot of practical knowledge, especially during two large group projects as programmer lead. Read programming in C++/C#, database systems, operating systems, assembly etc.

Data technological program, Gothenburg's Technical Institution

aug 2009 – jun 2012

My high school program where I grew an interest in program. about programming in C++, local networks, computer communication and more. Participated in the national programming Olympics 2012 for high school students, and ended up in 16th place.

## Programming Knowledge and Skills

**Really good skills:** C#, F#, Java, C++, HTML5, CSS3, Javascript, T-SQL, MySQL, ASP.NET MVC, WPF, Cordova, JQuery, AngularJS, NUnit.

**Good skills:** Objective-C, PHP, React, Vue, KnockoutJS.

Has used and developed on Windows, OS X and Linux.

## Language

Swedish, native language

English, very good at writing, rather good at speaking
